Railway Men Are Seriously Hurt

Two Moose Jaw trainmen are confined to the General hospital in this city as the result of accidents, encountered while on their runs last week. J. Creighton, a brakeman, fell in front of a car at Waldeck and one leg was run over being injured to such an extent that an immediate amputation had to be performed by Dr. D. E. Ross, C.P.H. surgeon.

The other unfortunate was W. Fownie, a fireman. Fownie fell out of the cab of the engine, while the crew was in the yards here and sustained a bad fracture of the elbow. Both men are reported as making favorable progress. — Herald-Swift Current.

Lyceum Concert Successful

The first concert of the Lyceum course, given by the Helibel Trio on Monday, in the Grand Theatre, was very largely attended. The program was commenced with a short sketch entitled "Fast Friends." Violin solos, vocal solos, duets, readings, monologues, etc. gave a variety to the entertainment, which was

OBITUARY

On October, the 19th, at Vancouver, B.C., there occurred the death of Elmer Horn, a well-known farmer of the district north-east of Empress. For more than a year Mr. Horn had been suffering from diabetes and had recently moved to Vancouver with his family in the hope of recovering his health. The change of climate seemed to be beneficial, but it was only temporary, and he succumbed to the disease on the above-mentioned date. Mr. Horn, who was only 34 years of age, was a very active, hard-working man, and carried on large farming operations north of the Red Deer river. The funeral was held at Empress, on Friday, and the remains were interred in the Empress cemetery. Besides his parents and brothers and sisters he leaves to mourn his loss his wife and two children, a boy 13 years of age and a little girl four years of age. The sympathy of the entire community is extended to these relatives in their great loss.

Our Duty

What is our duty here? To tend From good to better, thence to best,
Grateful to drink life's cup, then bend Unmurmuring to our bed of rest;
To pluck the flow'rs that round us blow,
Scattering their fragrance as we go.
And so to live, that when the sun Of our life's day shall sink in night,
Memorials sweet of mercies done
May shrine our names in mem'ry's light.
And each blessed seed we scatter—ed bloom
A hundred fold in years to come,

"Drys" Win Out in Four Provinces

Alberta, Saskatchewan, Manitoba and Nova Scotia, will now be "dry" as a result of Monday's voting, although proclamation of federal law prohibiting importation of liquor, may be delayed for a few weeks, it is said. Final official figures of voting results will not be obtainable until November 5. However, in all four provinces the majorities for the "drys" are said to be very large. Ninety per cent. of the women are conceded to have voted "dry." The "Wets" strongholds were in the cities, but these were swamped out by the rural vote.

You Throw Away A Real House Every Ten Years!

Did You Ever Think of the House you rent in this way? That the rent you pay to your landlord every 10 years, would buy you a Home of Your Own.

Every Ten Years you throw away a home—why throw away another? You don't have to wait ten years to own one! You can start today.

Let us supply you with a home. Pay for it on easy terms. And in due time it becomes your own.

If you feel that you can't afford to buy a home at present, buy a lot with a third payment down, pay for it in instalments, and when it is fully paid for, it is an easy matter having a home built on it.

"If there were direct government supervision of all liquor brought into the province—which, of course, is impossible under the present interprovincial system, the police could more easily deal with the sources from which police court offenders obtain their supply, and where there is some system whereby law-abiding sections of the community could obtain what liquor they reasonably require, there would be no temptation to resort to the bootlegger."

It was not so in Europe. There the very birth of war, which left profits in some parts of the world, almost everywhere brought disaster to the national life itself in other. The dragon upon manhood was so great that now in hundreds of thousands of families the very life of the nation is imperiled. Every is filled with orphan children whose prospect of life is negated by the very war which has brought so solidly and mental growth. In most cases the earning power and consequently the purchasing power of the home is destroyed.

Turning again to Canada we find here a surplus production of the commodities that are so badly needed in Europe. The surplus of these commodities is a commodity that is the prime necessity for the children of the poor in Europe. It is a commodity that is in such demand that it is being sold in quantities to which they bring far more means of purchasing it for them.

The Canadian Red Cross is going to Europe to see that the surplus of these commodities is not sold for the profit by means of a gouged appeal for com-

Typhus In Canada.
In its earlier days Canada suffered from the ravages of a disease then known as "spotted fever" but now known generally by the name of typhus. It is a disease that spreads rapidly and is very destructive of human life. In the years 1846-47 it was brought to Canada by immigrants and caused great loss of life. It is only by taking urgent measures to stamp it out in the centres where it is now raging that it can be controlled from spreading.

WALKING over plowed ground all day tires you, team as well as the driver. How about pulling a load besides?

In these days of scarcity of horse and man power the heavy farm work such as disking can be done most speedily and economically with a Case Kerosene Tractor. The 10-18 or smallest Case Tractor can pull an 8 ft. double action disc harrow set to full depth. Furry farmers can work the "iron horse" day and night if necessary. Don't forget that Case tractors operate over dusty fields without dust entering cylinders. The Air washer fully protects the Motor. The all cut steel spur gears are fully enclosed and run in oil. The weight of the tractor is 1500 lbs. and it has a 15 gal. fuel tank. It is priced at \$195.00. Call for literature. The Case Company, Racine, Wis. 53403.

The 10-18 is available in kit form. Kit includes all parts needed except paint and packing. Other important features explained in full descriptive literature sent out for the asking. Let us tell you more about the 10-18 or larger Case Tractors.

The Late Peter Campbell Bastedo

There passed away at Swenburgh on October 3rd, in his 87th year, having been born on the 2nd of December, 1833, Peter Campbell Bastedo, one of the oldest inhabitants of West Oxford, and a representative of two U. E. Loyalist families that were among the earliest settlers of the County of Oxford. Mr. Bastedo was the youngest and last surviving of six sons of the late Capt. Peter Bastedo, of Blenheim, and was the grandson of Jacob Bastedo who came with four sons over the age of twenty years to Canada from Schenectady, N. Y., in 1784. The late Mr. Bastedo's mother was Margaret Galbraith, daughter of John and Mary Galbraith, who resided on Governor's Road one-half mile east of Princeton.

His mother was the eldest daughter of John Cron, U. E. Loyalist. Mrs. Bastedo was reputed to be the first white female child born in the County of Oxford.

More than half a century ago Mr. Bastedo removed from Princeton to West Oxford, where he purchased an unsettled farm about two miles south of the village of Swenburgh, and here with William Force of Burford, he and his young wife, a daughter of the township, lived to see the virgin forest of giant pines, many of them over four feet in diameter, transformed into fertile fields of one of the most productive farms in the County. About ten years ago Mr. Bastedo retired from the farm to a pleasant home in

Swenburgh. His wife pre-deceased him about four years ago. He is survived by two sons, John, of Moose Jaw, and James of Swenburgh, and one daughter, Mrs. William Pullen of Empress, Alberta, formerly of Folsen's Corners. Two sons, Thomas and William, died a few years ago. Among the relatives from a distance who attended the funeral, which took place on Wednesday last at the Woodstock cemetery, were two nephews, S. T. Bastedo of Ottawa, and D. E. Bastedo, Sheriff of Muskoka, and a niece, Mrs. Arthur Hewitt of Princeton.—Sentinel Review Woodstock.

Organized Farmers

Arrange Joint

Week of November 1st first date for Campaign in Western Provinces

According to reports received at this office, two week beginning November 1st will witness the greatest organization campaign ever conducted by the farmers' organizations of the West. The campaign is to be carried on at the same time in each one of the three Western Provinces under the auspices of the U. E. A., the Saskatchewan Farmers' Association and the United Farmers of Manitoba. It is expected that there will be upwards of ten thousand canvassers working under approximately six hundred district captains and forty constituency organizers. These canvassers will personally visit the resident farmers in their respective districts and solicit, from each one, money with which to finance the organization.

Plan of Organization

There is, in each of the three provinces, a Central or Provincial Committee. The plans for this joint drive were arranged through a conference of the "Central Committees" and with the consent of the various constituency boards. The are uniform for the three provinces.

Messrs. Herbert Greenfield, Westlock, L. M. Goetz, Red Deer and Snow Sigs, Nanton, constitute the Central Committee for Alberta. On recommendation of this committee each of the twelve constituency boards has appointed an organizer who will have full responsibility for organizing the drive for the district.

The constituency boards are subdividing all of the territory in the district into units of approximately nine townships each and over each unit of nine townships is placing a "District Captain." The district captains are endeavoring to enlist the services of at least one man or woman in each one-half township under their respective jurisdictions—who will agree to personally visit every resident in the district on November 1st or November 2nd and solicit from each one \$5.00, this \$5.00 will pay for a membership in the Association—a years subscription to the official organ—and membership dues in the political organization.

A similar membership drive was made in Saskatchewan last October—and in Manitoba in March 1920. In the Saskatchewan drive upward of 2000 canvassers were enlisted and the sum of \$250,000.00 was collected. In Manitoba about 1000 canvassers were in the field and over \$50,000.00 was secured.

The drive to be held in November has been much more thoroughly organized and it is confidently expected that upwards of 10,000 active canvassers will be enlisted for campaign.

Copy for changes of advertisement into this office after noon on Monday of each week will POSITIVELY not be taken notice of until the following week, unless other arrangements happen to be made with the publishers.

“When you eat let it be the Best”

Our National Thanksgiving

By proclamation of the Governor-General in Council, Monday, October 18, has been declared to be a day of national thanksgiving in Canada, and all classes of the Canadian people are asked to observe it as such.

A kindly Providence has blessed the labors of our husbandmen with a bountiful harvest, not perhaps, one of those bumper crops which come once in a while, but a better crop than has been reaped in the West for some years past. Unlike the past two or three years, there are no retrograde areas of the Prairie Provinces have suffered a crop failure this year. While costs of production have remained high, world conditions are such as to guarantee a good price for Western Canada's grain crop.

Coupled with a satisfactory return from our fields, business conditions throughout Canada have continued uniformly good during the year. Our factories have been busy, there has been a marked revival in building operations, work has been plentiful and wages high. In fact the only check to development in Canada this year has been occasioned by inability to secure supplies and materials in sufficient quantities to meet all demands.

Compared with other countries, Canada has been remarkably free from industrial turmoil and strife this year. Labor troubles, culminating in strikes, have been few in number, and those which have taken place have been settled generally in an amicable way, and there has not been those great upheavals which last year caused enormous loss and suffering and at one time seemed to threaten the continuance of responsible constitutional government in this country. Both Labor and Capital have met their responsibilities to each other, and to the country at large, in a manner worthy of praise and deserving of the commendation of all people. Both have benefited and Canada has prospered. Canadians have good reason to be thankful over such a situation.

During 1920, too, Canada has been remarkably free from serious epidemics of disease and no great disasters have occurred, bringing loss, and sorrow and death to whole communities. This is indeed a cause for thankfulness.

The unrest which pervaded all ranks of society following the close of the war still affects our people, but it is more and more finding its manifestation in desire, and movements designed to bring about better conditions of living, of health, a higher standard of education and a more general provision that all people shall enjoy some of the best things in life. There is in evidence an impatience with conditions which made for evil and suffering in the past and a very widespread determination for a better standard of living for all. Such a feeling is a cause for national thanksgiving because it must inevitably result in finer national ideals and important reforms.

Canada bore itself nobly in the war. It was a time for sacrifice and service and the Canadian people did their full duty, and have reason to be proud of the part their Dominion took in that great crusade for human liberty. Equally, have our people a right to congratulate themselves upon the comparative ease and success with which the Dominion has reverted to a peace basis and has rehabilitated its soldiers and war workers into civilian life without any serious trouble. These things are cause for sincere thanksgiving.

But if a contemplation of conditions at home is not a sufficient cause for thanksgiving, it is only necessary that Canadians should consider for a moment present conditions existing in a large part of Europe and Asia where a state of war still prevails, where disease and famine stalk through the land, where countless thousands of people are suffering and dying through lack of the bare necessities of life, and where orphan children in their tens of thousands are merely existing without hardly a ray of hope for the future. Viewing conditions in Canada today in the light of conditions in so many European countries, Canadians may well rejoice that their lot has been cast in this Dominion. They may well rejoice and thank God that Canada is their home. And their thanksgiving may well take a practical turn in the form of helping, to the extent that they are able, to alleviate the suffering of others.

Shoes 400 Years Old

Age Established By Other Articles Found in Excavation.

Some boots at least 400 years old, with the stitches rotted but the leather in excellent preservation, have been found during excavations in the city of London. They were twelve feet underground in very moist soil, and it was this that preserved the leather. So pliable was it that the workmen, until they were stopped, took pieces home to do their own repairs with.

The boots do not differ very much from those of to-day; their great value was established, chiefly, by other articles found alongside them. They have no heels. Except for one child's pair, they are all men's boots.

Vatican Guards Have Been Armed.

Fearing invasion of the Vatican properties by Italian mobs, guards at the Vatican are now armed. The precautionary measures have been taken, it is understood, because of reports that Communists planned to occupy the Lateran Palace, which is the property of the Vatican. The Osservatore Romano, official organ of the Vatican, declared that "if the crowd is impregnated with Bolshevism it cannot be expected to refrain from invasion of the Vatican precincts."

The use of the tongue is the most sensitive part of the body.

Women of the Lee Choo Islands, south of Japan, tattoo their heads.

Greater Production

Big Grain Crops From Cultivation of Indian Lands.

Ottawa.—The greater production movement inaugurated by Rt. Hon. Arthur Meighen through the Indian Department in 1918 whereby some 20,000 acres of Indian lands throughout the prairie provinces were cultivated and turned over to grain raising, has more than justified the hopes of the officials who were behind it. The advances made by the Government for carrying out the scheme will be repaid this year, and it is estimated that there will be a surplus of about \$1,000,000, as a result of the splendid crops harvested on all these lands, which, previous to 1918 produced only prairie hay and grass.

Coughs, Colds, Bronchitis

If there is an ailment in the throat or chest, it is surely essential that the further progress of the longer, more affected part. It is because the healing vapor of Catarrhazine is breathing into the lungs and down the bronchial tubes that its balsamic action will soothe and destroy the cause of the trouble. These are the reasons why Catarrhazine never yet failed the cure of colds, coughs, asthma, bronchitis or throat trouble.

The wonderfully soothing vapor of Catarrhazine instantly reaches the further recesses of the lungs, produces a healing curative effect that cannot be obtained with a tablet or liquid, which goes merely to the stomach, and falls entirely to help the throat or lungs.

Catarrhazine Just Breathe It

To permanently cure your winter coughs, sneezing and colds, by all means use Catarrhazine, a proven remedy like Catarrhazine. But beware of the substitute. Large bottles two months, costs \$1.00, small size 50c, trial size 25c, at dealers everywhere.

Where Farming Pays.

A 1,500-acre farm in the north, near the Three Hills, Alberta, recently sold at an advance of \$15 per acre, which with the proceeds from the sale of the crop netted over \$50,000 for one year and a half's work.

The use of Miller's Worm Powder keeps healthy children safe from the ailments attributable to worms are concerned. A high mortality among children is traceable to worms. These sap the strength of infants so that they are unable to maintain the battle for life and succumb to weakness. This preparation gives promise of health and keeps it.

Motor Cars in Saskatchewan.

According to statistics recently compiled there is one automobile for every fourteen people in Saskatchewan, thus placing the Province on a par with the United States in this respect.

CHILDHOOD INDIGESTION

Nothing is more common in childhood than indigestion. Nothing is more dangerous to proper growth, more weakening to the constitution, or more likely to pave the way to dangerous disease, fully nine-tenths of all the minor ills of childhood have their root in indigestion. There is no medicine for the little ones to equal Baby's Own Tablets in relieving this trouble. They have proved of benefit in thousands of homes. Concerning them Mrs. Joe Lunette, Immatrice, Conception, Que., writes: "My baby was a great sufferer from indigestion, but the Tablets soon set her right, and now I would not be without them. Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Richter's Medicine Co., Brockville, Ont."

Alberta Wool Marketed.

Three hundred thousand pounds of wool have so far been shipped from Alberta in the Co-operative Wool Growers' Association in Toronto for disposal, and there are still two carloads to ship. This is a record, as last year the total output was only 200,000 pounds. For some time, there was no market for wool, but it is now quoted at anywhere from 25c to 60c per pound. The Association this year has handled about 2,000,000 pounds of wool from all parts of Canada, and the price secured is considered to be a splendid example of co-operation.

Getting A Stand of Alfalfa

Soil Should be Made as Smooth as Possible.

The methods of sowing alfalfa vary with the location and climate. In the arid sections it is a simple matter. The land is usually ploughed in early spring, worked down to a good seed bed, and the seed is sown alone in mid-June, spring time. A crop is often secured the first year, although the plants are not at their best until the third year.

The amount of seed to the acre varies from four to thirty pounds. The smaller amount is generally grown for the production of seed, as it seeds better not to be thick. It has been calculated that there are 14,448,000 seeds in a bushel of alfalfa seed. Therefore, to sow half a bushel to the acre would put 166 seeds to the square foot. To sow fifteen pounds would put 83 seeds. It is evident that it is more essential to have good seed and good distribution of it than to use a great amount of seed. About twelve to sixteen plants to the square foot are all that will ever stand, and on rich soil, they will not long endure even that much crowding.

Weeds often come up to crowd the young alfalfa. To destroy these weeds the field should be mown as close to the ground as possible. There may come a yellowish rust which attacks the leaves, but it is very uncommon. To destroy this cut close with a scythe. When preparing soil for alfalfa, leave as smooth as possible so that it all can be securely mowed.

A Funny Horse.

"You remember you told me a horse last week?" said the cabman angrily to the horse dealer. "Yes. What about him?" "He fell dead yesterday." "Well, I never!" said the dealer. "I told you he had some bad warts, but I never knew him to do that before."

AVOID ALUM IN FOOD

Baking Powder is one of the most important food ingredients. Alum or other injurious acids are frequently used by some concerns to lower the cost of production.

MAGIC BAKING POWDER

It is a pure phosphate baking powder and is guaranteed to be the best, purest and most healthful baking powder possible to produce. W. Matthew Williams, in "Chemistry of Cooking," says: "Phosphates are the bone-making material of food and have something to do with building up of brain and nervous matter."

Dominion Prospects.

Hon. J. D. Reid, Canadian Minister of Railways and Canals, on his return to England from Canada, gave to interviewers a rosy picture of Canadian conditions. He said that the railway proposition of the Dominion was good. "We have no significant crop, our industries are running almost full time, and we have very few labor troubles," the minister added. "Our revenues are fully up to expectations, we are commencing to play off our war debt, and we are a happy and contented people. What more could we desire?"

THE STYLE

Here is one consoling thought,
People still wear clothes,
Tho' some of us with fears are fraught,
People still wear clothes.
Ever since Eve took her bite
Folks keep partly out of sight
So why worry?—It's all right,
People still wear clothes.
Summer, Winter, Spring or Fall,
People still wear clothes,
There is not a doubt at all,
People still wear clothes.
The wolves skulk close to our doors,
We can keep safe from their claws,
Just as long as there are laws—
People still wear clothes.

Death of Mayor McSwiney

Torrence MacSwiney, lord mayor of Cork, died at Brixton prison, London, Monday, October 25, at 5.40 a.m. His death followed a hunger strike of 73 days, eclipsing any in the annals of the medical world.

Torrence MacSwiney, was one of the most prominent Sinn Feiners. He was 40 years of age and had been a poet, author and playwright previous to entering politics. He was violently anti-British.

Death was due to heart failure. The body is to be taken to Ireland, and will be interred at St. Finbar's cemetery in Cork. The authorities are not expecting any serious outbreaks or developments in consequence of the death of Lord Mayor McSwiney.
